Spray Station 3500®

Ideal homeowner system for multiple tasks and fine finishing

Your Earlex Spray Station 3500 is ideal for small to large interior and exterior home applications, woodworking, automotive and arts and craft projects. The new Spray Station 3500 HVLP turbine has more power for spraying thicker viscosity materials and providing better atomization at the tip. Coupled with the new Expert Control spray gun with patented features, the user has a much easier spraying experience, less overspray and even greater control. With the Spray Station 3500 you are guaranteed to get a great finish, spray faster, save paint and clean up quickly.

Ideal for spraying most water and oil based materials such as thinned latex, acrylics, enamels, polyurethanes, varnishes, lacquers, shellacs, stains, automotive finishes, sealers, deck and fence coatings and primers.

Key Features

- Fast 3 pattern changing system for horizontal, vertical and detail patterns
