Spray Station 5500[®]

Professional HVLP unit designed for light contractor and serious DIY enthusiast

The Spray Station 5500 is a professional HVLP unit designed for light contractor, occasional maintenance, woodworker and serious DIY enthusiast. The Spray Station 5500 is ideal for use in many environments where a great finish is required or overspray presents a problem.

Water-based and oil-based coatings can be applied with the HV5500 including thinned latex, varnish, wood preservatives, enamels, stains and solvent based paints. Onboard storage for spray gun, 13' hose and power cord and the long carry handle provides for easy portability. Includes 1 quart pro-gun with Teflon[®]-coated paint container.
